ART OF GIVING- Quotes

**‘It is not having that makes men great. A man
May have the largest abundance of God’s gifts – of
Money, of mental acquirements, of power, of heart-
Possessions and qualities- yet if he only holds and
Hoards what he has for himself, he is not great.
Men are great only in the measure in which they
Use what they have to bless others. We are God’s
Stewards and the gifts that come to us are his,
Not ours, and are to be used for him as he
Would use them.’**

The Potential / The need for this activity.

- ❑ Std.XII is very crucial for students, as the result of STD XII is the basis on which they get admission for Higher Education in colleges.
- ❑ In Gujarat more than 5,00,000 students appear for STD XII (all streams). General/Commerce stream students have limited scope for Professional Course except they take up courses like CA, CS, and MBA etc. Whereas Science stream Students about 1,20,000 nos per year with good marks can get admission for Engineering, IT, Computer, Pharmacy, Medicine, Dental, Physiotherapy etc
- ❑ In STD XII (Science), results @ 30,000 students pass with first class and above grades.
- ❑ We have observed that there, are many very low income (less than Rs 1,80,000 per year) group families. There are more than 500 science stream students every year who are very brilliant but cannot undertake higher studies though they can secure admission in good Engineering, medical or other high potential courses, as their parents cannot afford expenses to provide them college education.
- ❑ There are two types of colleges, 1) Govt/Grant-in Aid Colleges & 2) Self Financed Colleges.
- ❑ The Self Financed Colleges, charges annual fees of Rs 80,000 to Rs 3,00,000 and above.
- ❑ (Earlier we were specifying max family income as Rs. 300,000 per year.)

Methodology of selection of needy students:

- (1) We work at the moment for Gujarat based students as it is difficult to cope up with all of Needy Brilliant students of even Gujarat alone, considering large funds required.
- (2) We do not distinguish between caste, creed, class, gender, community etc. and only criteria is brilliance and real financial hardship of the parents.

Identification of such students : -

- (a) Every year, we write to large number of Higher Secondary School in Gujarat, to send list (with contact details) of Brilliant Needy students and than we send details of our loan scholarship to these student to apply if they are eligible and we actually get good no of applications due to these efforts from very Brilliant / Needy students.
 - (b) We also insert advertisements in main Gujarati News papers after 12th results are announced, seeking applications from such students.
 - (c) We obtain list of A1/A2 Grade students from GSHSEB which they have agreed because of the purpose.
- (3) After getting names and address we obtain extensive details by sending forms which includes proof of income, copies of results etc.
 - (4) We then select brightest and poorest students out of applications received and its number depends on funds available. If funds available are to induct 50 new students we select about 100 nos. of students for paying visits to their residences to verify written details furnished and to assess real need.
 - (5) We generally do not finance 100% of their expenses but do it as per short fall amount required and max about 90%.
 - (6) The disbursement of funds is based on reimbursement against proof furnished of their expenditure, within sanctioned amount.
 - (7) The financial assistance is on loan basis and recovery to commence after one year of their completion of course / earning commences. The agreements are signed by scholar. We however will take practical approach for recovery based on earnings and condition of the students' family.

Follow up with our Scholars during their College studies:-

- (1) We continuously get copies of various tests/exams given by students and monitor the status of their studies.
- (2) We have appointed honorary mentors at various places to
 - a. Assist and motivate students.
 - b. To continuously remind them to be successful and uplift their families, help others also.
 - c. To keep good health.
 - d. To keep good friend circle.
 - e. If there is English language problem to work on it by attending classes etc.
- (3) We also try to remain in touch by phones, meeting them etc.
- (4) We regularly organize review/interaction meetings at main places where large no of our scholars are studying.

Source of funds:

From kind Donors of the country and abroad. By Dec 24, we have disbursed Rs. 22 crores to 1869 no. of scholars.

Periodical Review/Interaction Meetings with our Scholars

We organize Periodical Review Meetings with the group of student studying at various locations like Surat, Ahmedabad, Anand/ VV Nagar etc where our students are studying.

Such Periodical Review Meetings provide an opportunity to understand the difficulties faced by the students and accordingly in guiding and counseling them. During such meeting we also arrange talks by some eminent speakers /motivators

History of Trust's Activity:-

The activity in the first year (2006-07) of the establishment of this Trust. :-

In March 2006, we conceived this activity and firmed up our mind to focus our work in this slot which has excellent potential to uplift large no of families by way of financially and motivationally to support very brilliant students, hailing from financially very weak families and so, their children though obtain 70/80/90% plus marks in class 12 (Science) and can obtain

admissions in degree courses in Engineering, Medical etc., they cannot get them educated because of their not being able to afford the expenses..

We observed that if such brilliant students get educated by our financial support within about 4-5 years, they will be able to become Engineers or Doctors etc. and then would be able to earn good income and UPLIFT their families.

We therefore inserted small advertisement in the local newspapers inviting applications for such students and their parents who would appear in class 12 examinations in March 06. Against our press advertisement, we got applications from 116 brilliant students.

We selected 55 out of 116 applications based on the most brilliant and the most needed ones. We interviewed them and selected 42 students who extremely deserved the support.

We then, made synopsis of about 38 students and sent to our friends etc. with a letter of appeal to consider helping as many students as possible. Based on the positive response received from various donors, we could extend financial assistance in the first year of our commencement of this activity, to 38 students.

The Second Year (2007-08) of the activity :-

Since, normally annual exams of 12th are held in March of every year and the activity of the trust had commenced in March 06, we did not have much time to obtain all Gujarat statistics for selection of the first batch of students appeared for exams in March 06 and depended more response to our press Advertisement.

However, after the work for the selection of the first batch was completed, we got in touch with Directors of Education of each District of Gujarat and got the list of High Schools and obtained List of needy Students.

In the second year of our activity, considering 38 students to be taken care of the first year and availability of funds, we gave scholarships to 14 fresh students in 2007-08 who had secured excellent marks in March 07 exam of 12th and were hailing from very needy families.

The Third year of (2008-09) of the activity of the Trust. :

We were all the time trying to get funds from more donors so that in the Third year, we can induct more students and also take care of $34 + 14 = 48$ existing scholars as we have to help each student for 4 to 5 years of their full course. It was heartening that with the help of Share and Care Foundation, we got excellent commitment from Dr. Doshis of New York and locally by Adani

Group and Cadila Group, we were in a position to induct much large no of fresh students as our scholars.

We made extensive scrutiny of these applications, got details in our proforma, got details of admissions secured etc. Large no of our matured volunteers and mentors visited residences of almost 200 selected applicants based on their merit and means.

We meticulously prepared tabulations of these students along with visit reports and have finally released fresh scholarships to as much as 93 students.

Now there are $38 + 14 + 93 = 145$ students who are getting financial support from us for their higher studies.

The fourth year of our activity (2009-10):-

Similarly, when in May 2009, the result of 12th (Science) was declared, next day, we had advertised and written to large no of Schools to identify Brilliant but needy students. This time, we had increased the eligibility of minimum marks by 5% as compared to last year, we had received 419 applications and we sanctioned scholarships to 92 nos only as per funds, we could mobilize.

The fifth year of our activity (2010-11):-

In 2010-11 also, we had received large no, of applications against which we could induct 42 nos of fresh scholars as per availability of funds.

The sixth year of our activity (2011-12):-

In 2011-12, we had received approximate. 444 applications out of which we have inducted 186nos of fresh scholars. Thus, by now, we have inducted 468nos of students as our scholars.

The Seventh year of our activity (2012-13):-

In 2012-13, we have further inducted 114 fresh students. Thus total no of students as our scholars work out as $468 + 114 = 582$ nos.

The Eight year of our activities (2013-14):-

In 2013-14, we had received over 411 applications out of which we have inducted 74 nos of fresh scholars making total of $579 + 74 = 653$ nos to whom we are supporting for their Higher Studies.

The Ninth year of our activities (2014-15):-

In 2014-15, we had received over 556 applications out of which we have inducted 75 nos of fresh scholars making total of $651 + 75 = 726$ nos to whom we are supporting for their Higher Studies.

The Tenth year of our activities (2015-16) :-

In 2015-16, we had received over 600 applications out of which we have inducted 162 nos of fresh scholars.

- Against our Press Advertisements, letters to over several Schools, and to students who obtained A1 & A2 Grade, we have received approx 600 applications this year.
- Detailed scrutiny was done of these applications and 200 best applications were selected for visits to residences of these students.
- Based on Merit, Income & Visit Reports, we have sanctioned our interest free loans to 159 nos of worthy students.

My dear Brilliant Scholar of HEST, inducted in 2014-15,

Greetings

We are overjoyed to learn your recent mail informing that you have been selected in a reputed company with good salary package in your recent college campus interview. Hearty congratulations for your commendable success and progress. It is more so now, as job opportunities in general have dwindled.

Your company will be expecting you to secure minimum first division in your last semester and overall CPI, more than 6.0 or even 7.0. I am sure; you will secure much higher score in your last exams. Please do inform us when you join your Job.

In order that your junior colleagues who are now studying in 5th semester or so, get guidance from you, please do share your successful experience in facing campus interview including Aptitude test, with us so that we can forward it to them in order that they get fully prepared when they also face campus interviews in near future.

If your college or from elsewhere, you have received literature/book or prepared any notes on preparation for Campus Interviews please do send a copy to us so that this also can be forwarded to above students.

You are aware that our scholars are brilliant, who hail from less fortunate families economically and you and we both feel that with your continued hard work and determination, you have been greatly successful and you will now UPLIFT your family and impart much more comfortable living to your parents who have struggled a lot for your higher education etc.

Please remain in touch with Global trend in technology and development for products of your company by regularly reading technical and other magazines available in libraries etc. and through internet etc. Please get full knowledge on you company's products so that you can confidently participate and contribute in meetings, seminars etc.

Dear brilliant scholars of HEST, inducted in 2015-16,

You are aware that the mission of our trust (HEST) is that you are very brilliant child of your needy, struggling parents and that your parents and we and you also must be expecting that you will study very sincerely and seriously so that you get excellent results of each and every semester.

In semester 7 and 8 of Degree Engineering colleges, various good companies would come to your college for recruitment of Engineers. Each company will have their own criteria to call you for test, interview etc.

At the present moment, Job vacancies generally are few due to slowdown in growth in the industry and therefore, it is very much necessary that you should grab the opportunity to get the Job in your college campus interview itself as outside, off campus, it is much more difficult to get Job. Also, good, reputed companies recruit fresh Engineers only through college campus interviews and therefore, you may lose the chance to get job in such reputed companies who also offer better pay packages in campus recruitment.

You must have already started preparation for your college campus interviews from now itself. Normally, they may first take written test of those students who have obtained SPI/CPI as specified by them and those who clear written test will, further appear for aptitude, group discussion and personal interview etc.

Phase meet some of your senior students who would have appeared for campus interview in current year and get idea of how to prepare for campus interviews? Please get idea of books etc. from them.

You will also need to express with good communication and presentation skill in group Discussion and personal interview. Hope by now you are good in English.

In short, you should strongly prepare for campus Job recruitment/interview procedure followed by companies coming to your college.

Please take firm determination/sankalp that you will certainly get excellent job with good package in your college campus itself. This will ultimately result into your decent life and also helping your parents, brother-sister to uplift their life style and live respectable life.

Please reply with efforts you have made and will make to obtain good job through your college campus recruitment by companies.

Best Wishes

My dear students, inducted in 2014-15,

You are one of our brilliant students, inducted in HEST by us for our support, in 2014-15

Out of these students, Degree Engineering students at present would be studying in their 8th and last semester while during current studies, these Degree Engineering students including yourself, might have appeared for Campus Interview in your college, held by various companies at your college campus for the recruitment.

In some Engineering colleges, such campus interviews might be still continuing.

We would request you to inform the following:

- 1) In how many companies' campus interview, you were called for interview and you have appeared in it?
- 2) In which company you could get selected and if so, please inform us by mail, the name of the company and salary package offered to you. Have you accepted this offer?
- 3) In case of how many companies', campus interviews, you have appeared but could not get selected in any. Please give reasons of not getting selected.

You must be aware that the availability of Jobs directly, outside campus interviews is very tough and most of the reputed companies with good salary packages recruit their requirements only through college campus interviews. The Job availability directly in general is not very encouraging. It is rather scarce. You should make serious attempts to get good job.

Please reply immediately.

Best Wishes,

J. K. Shah

The Most Critical matter of our Scholars is to successfully Get Job in College Campus Interviews in which they get Job in Good Compnies with Good salary Package, also

Outside Campus, it is difficult to get Job.

Assistenceto our Scholars is given in Subsequent Pages as narrated by our Past Scholars.

Subject: Most Critical Mile-stone of your Life: college campus Job Interviews.

Dear Scholars of HEST, inducted in 2020-21,

You are now studying in the 7th semester which is last year of your Degree Engineering studies.

You will have campus Interviews for Jobs in semester 7th & 8th you may be aware that the fresh jobs availability in the country is not satisfactory and reputed companies recruit fresh Engineers only through campus Interviews which they take in their certain Approved colleges only. It is therefore very important and critical that you must secure a Job in companies coming in your college as off-campus, Job availability is scarce and very difficult to get.

You also must be aware that companies take campus interview in following manner:-

- I. Aptitude Test which is normally not taught in your Engineering course but some colleges are giving training for it by external tutors.
Generally, students learn Aptitude Test from “Quantitative Aptitude “book of Dr R.S.Agarwal. This book is available in Amazon India, online.
- II. Written test on your Engineering subjects and on Aptitude. Also coding test for IT/Computer students.
- III. Group Discussions : In this, students need to participate lively which is possible if you develop good communication skill and
 - a. Reasoning on the topic, to be aware of current affairs / Topics etc.
 - b. Participating, body language.
 - c. Expressing in short time (Time Management)
 - d. Presentation (Articulate)
 - e. Summarizing
 - f. Creativity
 - g. Listening
 - h. Proactive
 - i. Be Analytical
 - j. Practice public Speaking

You can make a group of 4/5/6 of your college friends and practice for Group Discussions. Lot of hints are also available in the internet also.

- IV. Oral personal interview mainly for HR / Personnel matters.
You should take Guidance from your placement officer and seniors to perform better in the campus Interviews and secure a Job.
- V. It is observed that in spite of studying in the Best-reputed colleges, some students fail to secure a job in college campus. This will be tremendously PAINFUL

matter like Paradise lost. You must make serious & sincere preparation for campus Interviews

Sometimes, some students have some preference for a particular type of job like Marketing , Production, Planning, R & D etc but it is better to not to attach yourself for a particular branch as there is scope of development in all branches and department if you are sincere.

One thing is to be kept in mind that if you fail to get Job in campus interview in your college, it would be difficult for you to get any good Job off- campus and you will have to compromise for second Grade Job with low salaries. Some students neglect college campus Interview as they target for Govt Jobs. We have observed that thousands of candidates appear for few Govt jobs. Many students go on appearing for their written tests even for 2 years and still do not get Govt Jobs. Sometimes they get Job with low salaries. We recommend that you should not waste your valuable time for this option and try to get good Job in your college campus only.

Secondly, some students wish to undertake further study in India or abroad but it may happen that it may not materialize for any reason and therefore you must secure a college campus Job and keep it in your pocket which will be of great help if you cannot undertake higher studies.

There are following campus- interview trainers located at Ahmedabad to whom also you can contact for guidance.

- 1) For Aptitude test: Sri Alope shah (cell no . 78785 55688)
- 2) For GD & Soft Skill : Smt vibha Tank (cell no. 99740 07476)

If you want to take training from above trainers or any other trainers of CRT Training institutions, please contact us. They will need about 25/30 Hrs each for giving you training so 8 to 10 Saturdays will be needed.

If you wish to take training from them or other known experts we will offer you loan for training cost up to Rs. 5000/- . Please inform and take our prior permission. If cost is higher than Rs. 5000=00 please get our prior approval.

In short, you must secure good Job in your college-campus-interview. It is most critical matter for you in your Life. You must WIN. You must spare about one hour everyday or 10 hours every week including Sundays for campus interview preparation.

Last year, many of our scholars had secured excellent jobs with very good salary packages. Some of them have given to us details as to how they prepared for campus interviews and also have given reference for getting reading materials and websites. Copies of their nice recommendations are attached for your getting prepared and getting excellent jobs. You can also take advice from your senior students of your college for campus interview training success.

Please reply with actions you are taking for this critical matter.

This is very critical please reply.
