ART OF GIVING- Quotes

'It is not having that makes men great. A man
May have the largest abundance of God's gifts – of
Money, of mental acquirements, of power, of heart-
Possessions and qualities- yet if he only holds and
Hoards what he has for himself, he is not great.
Men are great only in the measure in which they
Use what they have to bless others. We are God's
Stewards and the gifts that come to us are his,
Not ours, and are to be used for him as he
Would use them.'

HIGHER EDUCATION SUPPORT TRUST (HEST)

(OUR MAJOR SUPPORTER: SHARE & CARE FOUNDATION -USA)

Educate 2 Graduate (E2G) Program

Preamble :

There are really Brilliant Students scoring more than 70% marks in class 12th in spite of having studied in ordinary schools and not having good facilities. These students can get admission in Engineering, Pharmacy, Computer / Software, Medical etc., but due to very low income, their parents cannot impart higher education to them. Our activity is to financially and mentally support such students so that they can become Engineers, Doctors etc., and uplift their families.

OUR MISSION:

To Perpetually UPLIFT Downtrodden/Needy Families by supporting their Brilliant and Determined children for their Higher Education in Professional Courses in Universities, mainly, Degree Engineering, Medicine and Chartered Accountancy.

Our Vision:

The benefits of the trust shall be open to all irrespective of caste, creed or religion. Without in any way limiting the generality of the main objects. The objects of the trust are to provide and to undertake the shortfall in the payment of costs directly and indirectly related to providing opportunities to individuals from weaker, poor, needy and underprivileged sections of public in India without any distinction to obtain higher education at university and / or equivalent educational institution in India, including –

- To institute studentships, scholarships, stipends, medals, prize etc. And award the same.
- To help and encourage / motivate, deserving students and to provide monetary and Other assistance to students, scholars for pursuing their education / higher / further study and to continuously monitor / guide them for their success apart from providing monetary assistance.
- To do all that is necessary and incidental for the purpose of achieving the objects mentioned above

Accounts & Auditing of HEST:-

(1) We also get our accounts audited every year by reputed Chartered Accountant. This is also required by Charity Commissioner and Income Tax authorities and also FCRA authorities etc.

Registration of HEST:-

(1) Our Trust is registered with charity commissioner vide no E/3164/Bharuch
(2) Donations to our Trust qualify 80 G income tax concessions.
(3) FCRA has granted as permanent registration no = 04199072, Nature = Educational to receive donations in Foreign Currencies from abroad without prior approval.

The Potential / The need for this activity.

- Std.XII is very crucial for students, as the result of Std XII is the basis on which they get admission for Higher Education in colleges.
- In Gujarat more than 5,00,000 students appear for Std XII (all streams). General/Commerce stream students have limited scope for Professional Course except they take up courses like CA, CS, MBA etc. Whereas Science stream Students about 1,20,000 nos per year with good marks can get admission for Engineering, IT, Computer, Pharmacy, Medicine, Dental, Physiotherapy etc
- In Std XII (Science), results @ 30,000 students pass with first class and above grades.
- We have observed that there, are many very low income (Say less than Rs 1,80,000 per year) group families. There are more than 500 science stream students every year who are very Brilliant but cannot undertake higher studies though they can secure admission in good Engineering, medical or other high potential courses as their parents cannot afford expenses to provide them college education.
- There are two types of colleges, 1) Govt/Grant-in Aid Colleges & 2) Self Financed Colleges.
- The Self Financed Colleges, charges annual fees of Rs 55000 to Rs 1,80,000 and above.
- (Earlier we were specifying max family income as Rs. 100,000 per year.)

Methodology of selection of needy students:

(1) We work at the moment for Gujarat based students as it is difficult to cope up with all of Needy Brilliant students of even Gujarat alone, considering large funds required.
(2) We do not distinguish between caste, creed, class, gender, community etc. and only criteria is brilliance and real financial hardship of the parents.

(3) **Identification of such students : -**
   (a) Every year, we write to large number of Higher Secondary School in Gujarat.
   (b) Many High schools of Gujarat to send list of such brilliant but needy students.
   (c) We also insert advertisements in main Gujarati News papers after 12^{th} results are announced, seeking applications from such students.

(4) After getting names and address we obtain extensive details by sending forms which includes proof of income, copies of results etc.

(5) We then select brightest and poorest students out of applications received and its number depends on funds available. If funds available are to induct 50 new students we select about 75 to 100 students for paying visits to their residences to verify written details furnished and to assess real need.

(6) We generally do not finance 100% of their expenses but do it as per short fall amount required and max about 90%.

(7) The disbursement of funds is based on reimbursement against proof furnished of their expenditure, within sanctioned amount.

(8) The financial assistance is on loan basis and recovery to commence after one year of their completion of course / earning commences. The agreements are signed by scholar. We however will take practice approach for recovery based on earnings and condition of the students' family.

Follow up with our Scholars during their College studies:-

(1) We continuously get copies of various tests/exams given by students and monitor the status of their studies.

(2) We have appointed honorary mentors at various places to
   a. Assist and motivate students.
   b. To continuously remind them to be successful and uplift their families, help others also.
   c. To keep good health.
   d. To keep good friend circle.
   e. If there is English language problem to work on it by attending classes etc.

(3) We also try to remain in touch by phones, meeting them etc.

(4) We regularly organize review/interaction meetings at main places where large no of our scholars are studying.

Periodical Review/Interaction Meetings with our Scholars

We organize Periodical Review Meetings with the group of student studying at various locations like Surat, Ahmedabad, Anand/ VV Nanar etc where our students are studying.

Such Periodical Review Meetings provide an opportunity to understand the difficulties faced by the students and accordingly in guiding and counseling them. During such meeting we also arrange talks by some eminent speakers /motivators.

Brief History of Trust's Acitivity:-

The activity in the first year (2006-07) of the establishment of this Trust. :-

In March 2006, we conceived this activity and firmed up our mind to focus our work in this slot which has excellent potential to uplift large no of families by way of financially and motivationally to support very brilliant students, hailing from financially very weak families and so, their children though obtain 70/80/90% plus marks in class 12 (Science) and can obtain admissions in degree courses in Engineering, Medical etc., they cannot get them educated because of their not being able to afford the expenses..

We observed that if such brilliant students get educated by our financial support within about 4-5 years, they will be able to become Engineers or Doctors etc. and then would be able to earn good income and UPLIFT their families.

We therefore inserted small advertisement in the local newspapers inviting applications for such students and their parents who would appear in class 12 examinations in March 06. Against our press advertisement, we got applications from 116 brilliant students.

We selected 55 out of 116 applications based on the most brilliant and the most needed ones. We interviewed them and selected 42 students who extremely deserved students.

We then, made synopsis of about 38 students and sent to our friends etc. with a letter of appeal to consider helping as many students as possible. Based on the positive response received from various donors, we could extend financial assistance in the first year of our commencement of this activity, to 38 students.

The Second Year (2007-08) of the activity :-

Since, normally annual exams of 12^{th} are held in March of every year and the activity of the trust had commenced in March 06, we did not have much time to obtain all Gujarat statistics for selection of the first batch of students appeared for exams in March 06 and depended more response to our press Advertisement.

However, after the work for the selection of the first batch was completed, we got in touch with Directors of Education of each District of Gujarat and got the list of High Schools and obtained List of needy Students.

In the second year of our activity, considering 38 students to be taken care of the first year and availability of funds, we gave scholarships to 14 fresh students in 2007-08 who had secured excellent marks in March 07 exam of 12^{th} and were hailing from very needy families.

The Third year of (2008-09) of the activity of the Trust. :

We were all the time trying to get funds from more donors so that in the Third year, we can induct more students and also take care of 34 + 14 = 48 existing scholars as we have to help each year for 4 to 5 years of their full course. It was heartening that with the help of Share and Care Foundation, we got excellent commitment from Dr. Doshis of New York and locally by Adani Group and Cadila Group, we were in a position to induct much large no of fresh students as our scholars.

We made extensive scrutiny of these applications, got details in our proforma, got details of admissions secured etc. Large no of our matured volunteers and mentors visited residences of almost 200 selected applicants based on their merit and means.

We meticulously prepared tabulations of these students along with visit reports and have finally released fresh scholarships to as much as 93 students.

Now there are 38 + 14 + 93 = 145 students who are getting financial support from us for their higher studies.

The fourth year of our activity (2009-10):-

Similarly, when in May 2009, the result of 12^{th} (Science) wad declared, next day, we had advertised and written to large no of Schools to identify Brilliant but needy students. This time, we had increased the eligibility of minimum marks by 5% as last year, we had received 419 applications and we sanctioned scholarships to 94 nos only as per funds, we could mobilize.

The fifth year of our activity (2010-11):-

In 2010-11 also, we had received large no, of applications against which we could induct 43 nos of fresh scholars as per availability of funds.

The sixth year of our activity (2011-12):-

In 2011-12, we had received approximate. 444 applications out of which we have inducted 187 nos of fresh scholars. Thus, by now, We have inducted 468nos of students as our scholars.

The Seventh year of our activity (2012-13):-

In 2012-13, we have further inducted 111 fresh students. Thus total no of students as our scholars work out as 468 + 111 = 579 nos.

The Eight year of our activities (2013-14):-

In 2013-14, we had received over 411 applications out of which we have inducted 72 nos of fresh scholars making total of 579+72=651 nos to whom we are supporting for their Higher Studies.

The Ninth year of our activities (2014-15):-

In 2014-15, we had received over 556 applications out of which we have inducted 73 nos of fresh scholars making total of 651+73=724 nos to whom we are supporting for their Higher Studies.

The Tenth year of our activities (2015-16) :-

In 2015-16, we had received over 600 applications out of which we have inducted 159 nos of fresh scholars.

- Against our Press Advertisements, letters to over several Schools, and to students who obtained A1 & A2 Grade, we have received approx 600 applications this year.
- Detailed scrutiny was done of these applications and 200 best applications were selected for visits to residences of these students.
- Based on Merit, Income & Visit Reports, we have Sanctioned our interest free loans to 159 nos of worthy students.
- **Income Analysis of these 156 Students :**

No. of Students	Up to Rs. 40,000/ Year	41,000 to 60,000	61,000 to 80,000	80,001 to 1,00,000	1,00,001 to 1,20,000	1,21,000 to 1,40,000	1,41,000 to 1,60,000	1,61,000 to 1,80,000

11th year of activity (2016-17):-

We have till November 2016, inducted 154 nos of fresh scholars,

The Analysis of 154 nos of fresh students inducted is as follows:-

(1) Income Analysis of these 154 nos of students' families:-

	Income upto Rs.50,000 Per Year	50,001 to 1,00,000	1,00,000 to 1,50,000	1,50,001 to 2,00,000	Total
Nos.	**10**	**103**	**25**	**16**	**154**

It can be seen that 74% of Scholars inducted have annual family income below Rs. 1,00,000=00 per year.

(2) Grade of Students in 12th (Science) Board Exam:-

Grade	A1	A2	B1	CA/CS/DtoD	TOTAL
Nos.	**38**	**90**	**16**	**10**	**154**

A1 = 91 to 100%, A2 = 81 to 90%, B1 = 71 to 80%.

It can be seen that 25% of Scholars inducted have scored above 90% and 59% have scored above 80 % marks in 12th science.

(3) Analysis of Courses of these 154 nos of students:-

	Medical Students	Engineering Students	CA/CS/DtoD	Total
Male	**31**	**91**	**5**	**127**
Female	**15**	**7**	**5**	**27**
Total	**46**	**98**	**10**	**154**

i. **Degree Engineering = 98 nos**
ii. **Degree Medicine = 46 nos**
iii. **Rest : CA/ CS/DtoD= 10 nos**

All these 154 nos of fresh scholars have secured admissions in Gujarat's top most, reputed colleges as approved by us in Degree Engineering stream having excellent record of placement in good companies even in slowdown period and due to establishment large no of new colleges, resulting in much higher supply than Demand. It is also true in other streams.

Total nos. of Students Supported by us by now :

By now, total Students supported by HEST are 883+154=1037 nos.

Comments on 9 nos of our scholars who have scored 50 To 59% Marks:-

Out of these 9 nos, 4 nos are of Medical (MBBS) Course and another 4 nos are from M.S.University–Baroda. In these cases, results given generally by Universities are on very lower side compared to other Universities. 9th student is of BVM with 59.4%. However, we have made strong follow up with these 9 students to improve their results.
